

## WOMAN IN NEED SEEKS HUSBAND

Wife in Destitute Condition  
Asks Aid of Police.

### HER BABY DIES FROM HEAT

Too Proud to Call Upon Charity,  
Mrs. Zell Struggles Bravely to Care  
for Her Family After the Father  
Disappeared Mysteriously—Two  
Children Dangerously Ill at Home.

Herself so weak from exhaustion that she could hardly stand and the baby in her arms desperately in need of a physician's attention, Mrs. John M. Zell, of 404 W street northeast, was found by the police at the police station last night and asked the police to assist her in the search for her husband, who has been missing since Thursday.

Zell, who is but twenty-two years old, lost his position several weeks ago, and has been unable to obtain employment. With a wife and several small children to care for, the little money that he had saved soon melted away, and for two weeks the family existed on the little that he could pick up by odd jobs about the city.

**Baby Dies from Heat.**  
Too proud to seek aid at the Board of Charities, they tried to struggle along on what was left. One of the children was taken sick, and then another, and a few days ago the baby succumbed to the effects of the heat.

On Thursday Zell told his wife that he was going out to secure a job, and said he would search until he found it. He did not return home at night, and Friday and Saturday passed without a word from him. At last, actually facing starvation, the wife, appealed to the police, and every effort is being made to locate the missing man.

Zell was formerly a chauffeur, and it is thought that possibly he may be found working at some of the garages in the city.

## ESTRADA FORCES NEARING CAPITAL

Gen. Moncada Rushes Madrid  
Brigade at Acayapa.

### HUNDREDS LIE DYING ON FIELD

Test of Ten Months' War Will Be on  
When Rebel Leader, in Command  
of Own Army, Approaches Managua  
and Cuts Through Last Obstruction—Against Advice of Sonul.

Bluefields, Nicaragua, July 23.—Estrada's forces have succeeded in cutting a path through the government of Madrid's army at Acayapa. Fighting has been in progress there for the last month. Last Thursday Gen. Moncada, of the Estrada forces, rushed the Madrid brigade under Commander-in-chief Vasquez and Gen. Garrido.

Most of the fighting occurred within the town of Comolapa. The Madrid forces were cut down. They fled, leaving hundreds dead and dying on the field. One report received this noon declares the losses in this fight will amount to 500. Most of the casualties were scored against the government.

**Going Toward Managua.**  
Moncada has been ordered to go on toward Managua with his army, while the other division of the Estrada army will attempt to cut through the last Madrid obstruction and effect a junction with the victorious troops of Moncada.

"Then the real test of the ten months' war will be begun. The prize will be Managua, the advanced cautiously. Estrada got closer to the capital last January than he is now, but he was flung back and his army torn to pieces. However, conditions are different now. He has gone into the field to take personal charge of the final assault of Managua. He left here this week and should reach Acayapa Monday. He hopes to ride at the head of his troops into Managua.

**Directed by Estrada.**  
The present campaign was directed by Estrada against the advice of the United States consul here, it is said, and this official was backed up in his opinion by various commanders of the marines who were posted here six weeks ago.

However, Estrada was determined and he sent his men under Gen. Mena into the field in the middle of the rainy season. They advanced cautiously, established frequent bases or supplies, and survived at the enemy's front in good shape for fighting.

1405 F Street N. W.

## TAFT IS SUFFERING FROM BAD ANKLE

Continued from Page One.

that you are as much as any people of the republic interested in the subject which has so many definitions—so many various definitions—the conservation of our resources. In the first place, early in the development of the West everybody who wanted to be a successful farmer went West for the purpose of finding rich soil that would grow big crops with as little cultivation as possible, and the Maine man played a large part in the development of the Western country.

**Rich Soil Taken Up.**  
"But now all the rich soil has been taken up; now we are issuing bonds in order to put water on the dry soil in the West that otherwise would not grow crops, and the thoughts of many of the wisest men of the country are being turned to the abandoned farms of the East, where modern science in agriculture shows that crops can be raised if only proper attention and rules are followed in the cultivation of the soil."

"You have in Maine broad acres of land that can be availed of for the purpose. Farmers to-day are our millionaires, and there is no reason why Maine should not have farmer millionaires as well as the West. I don't know how many bushels of potatoes you raise in Aroostook County, but I do know that you have doubled or trebled the yield in a short time, and there is no reason why this should not be true for the whole State of Maine. Nor do I see any reason why the young men who come out of your agricultural schools should not stay here on the farms of Maine and raise crops that will make them comfortable and enable them to send their children to colleges and universities, and continue their political and moral influence throughout the State and the nation."

After luncheon at Bangor the special brought the President back to Ellsworth. Senator Hale met him at the station, and the President was heard to say, as he leaned on the shoulder of a Secret Service man and climbed into the car:

"Well, Senator, I'm glad to get to your home and rest."

**Tells Senator Hale.**  
At Hancock Hall here the President told Senator Hale about the "trip to Maine which Mrs. Taft was planning." He had been invited to come inland. Curiosity to see a Chief Magistrate, the President said, was entirely natural to the people. He said he was in accord with the spirit, referring to himself as a man who "I hope is doing the best he can; who's getting so much criticism, but who, after all, is apparently thriving on it."

Prof. H. C. Emery, chairman of the tariff commission, took breakfast on the Mayflower to-day. He talked over his European investigation trip with the President in a general way, but will reserve most of his report until later. He will come to Beverly next month with Secretary of the Treasury MacVeagh. Following his visit, the whole commission is looked for at the Summer Capital.

## KEEP UP GRAFT WAR

Rudolph Spreckels Returns  
from Trip Abroad.

### INDORSED BY MR. HAPGOOD

Plans for National Organization to  
Taboo Political Influences Favored  
by Men of Standing in Europe—He  
Thinks Movement Will Have Im-  
portant Bearing on Fall Elections.

New York, July 23.—Rudolph Spreckels, who arrived to-day by the Hamburg-American liner Kaiserin Augusta Victoria, and who intimated when he left here on June 8 that he had plans for a national organization for fighting graft in business and politics, declared that he might have something to say later as to the progress of the movement.

He said he had seen Norman Hapgood, of Collier's, while he was in Europe, and that Mr. Hapgood had endorsed his plans and that there were other men of influence and standing who favored them. He will be at the Plaza for the next two weeks, and it was hinted that a conference will be held in his apartments there and the organization formed.

**Influence in Politics.**  
Mr. Spreckels said that he believed that American prosperity would be menaced so long as holders of great wealth were able to influence political conditions. He declared that although he was and always had been an optimist, he could not shut his eyes to what was impending.

"I feel and see," he said, "what is in every movement of the capitalists and the politicians whom the capitalists control. I expect to see the interests make a very important move before the fall elections, in the hope of influencing them. This move will cause a national disturbance that will affect business very materially."

Mr. Spreckels is in favor of the insurgents in Congress, and said he believed that many if not all of them would be returned, and that they eventually would control legislation. Spreckels said he looked to wealth to bring about better conditions, but not the wealth that had allied itself with the politicians.

**ESTIMATED AT \$71,000,000.**

**Estate of E. H. Harriman Given Out in Official Figures.**

New York, July 23.—Edward H. Harriman was worth \$71,000,000 when he died, on September 9, 1909.

Wall street and the general public have made estimates of the amount of the Harriman estate that ranged from \$100,000,000 to twice as much, but even of his most intimate friends, believed that his estate would fall below \$50,000,000.

The estimate given above is that prepared by Charles A. Peabody, president of the Mutual Life Insurance Company, who was one of Harriman's closest friends and legal advisers.

Mr. Peabody, representing Mrs. Harriman, paid into the office of Comptroller Williams on March 5 last, \$75,000 as his estimate of the amount of inheritance tax to which the State would be entitled under the transfer tax law. Under the law the payment of this tax within six months of the death of the testator entitles the estate to a rebate of 5 per cent. A little figuring shows that Mr. Peabody's estimate of the Harriman estate was, on March 5, \$71,063,737.

## PETTY THIEVES BUSY

Police Think Gangs Are at  
Work in the City.

### MANY CASES ARE REPORTED

Andrew Allen Misses \$22 in Cash from His Home, While Some One Vanishes from Street Car with John Gassaway's Baseball Suit. Diamond Rings Are Stolen.

Numerous petty thefts, continuing the series which have led the police to think that several gangs of professional crooks are at work in the city, were reported yesterday at the various precincts.

While none of the thefts was large enough to require special investigations, they nevertheless cause annoyance in detective circles.

The first to report his troubles was Andrew Allen, of 254 U street northwest, who is regretting the loss of \$22 in cash, which was taken from his bureau drawer. Allen missed the money from his accustomed place upon his arrival home from work and lost no time in reporting the theft. No arrests have been made.

Another theft was reported by Louis E. Richards, of 1024 Massachusetts avenue northeast, from whom was stolen a gold chain, an heirloom, valued at \$25.

Miss Hazel J. Walters, of 1113 Twenty-fourth street northwest, yesterday reported the theft of her gold wedding ring.

**Loose Diamond Ring.**

William Thomas, colored, a janitor in the Ardmore apartment house, 315 Twelfth street northwest, reported yesterday at headquarters that a sneak thief had entered the basement of the apartment in the morning and taken from his rooms two rings, set with diamonds. During his absence from the rooms the thief made his entrance through a rear door.

When John H. Gassaway boarded a Mount Pleasant car yesterday afternoon he placed his suit case on the platform and went inside to read a paper. While he was reading some one appropriated the suit case, and now he is minus a suit of clothes, a complete baseball outfit, and a good pair of shoes.

Forest Varney, of 712 Nineteenth street, slept yesterday afternoon, and when he awoke he missed a suit of clothes and a pocketbook containing \$2, which was in his trousers pocket.

**Thieves Get Brushes.**

Thieves broke into the paint shop kept by J. H. Holland & Co., 1509 H street northeast, and not finding any money to take with them, carried off 10 worth of new paint brushes.

When Harry C. Renham, of 1306 S street northwest, went to his store at 1700 Eighteenth street yesterday morning, the first thing that attracted his attention was his cash register, which lay battered to pieces. A quick inspection showed that only \$3 was taken from the drawer.

C. L. Roudier, of Rockville, reported to the police yesterday that his pocket was picked of about \$30 while he was in the Saturday morning rush at Center Market. No clew has been obtained by the police.

J. J. Kirby, of 1332 Park road, yesterday reported to the police the loss of an envelope containing \$28. Search at his home proved that the money must have been lost while he was in the street.

## FISH RAPS CANNON.

Representative Opens Fire in De-  
fense of Insurgent Movement.

Utica, July 23.—Representative Hamilton Fish, of Garrison-on-the-Hudson, unlimbered his heavy artillery in defense of the insurgent movement in Congress in a speech before members of the Oneida County Republican League here this afternoon.

He took a sharp fall out of Speaker Cannon, rapped former Representative James E. Watson, of Indiana; mildly rebuked Vice President Sherman, and aligned himself unequivocally under the Taft banner.

The Oneida County Republican League is behind the candidacy of Theodore Douglas Robinson in the latter's fight for the Congressional nomination in Oneida, Herkimer district.

## CAMP FIRE CLUB ATTACKS NAGEL

New Yorkers Make Charges  
About Fur-seal Killing.

The Camp Fire Club, of New York, of which W. T. Hornaday, director of the Bronx Park Zoo, is one of the leading spirits, has renewed its attack upon Secretary of Commerce and Labor Nagel on account of the policy that he has adopted in regard to the fur-bearing seal herds on the Pribilof Islands.

The Camp Fire Club's latest attack is in the form of an open statement to the people of the United States.

Appended to the statement as exhibits are a number of peppy letters that passed between Secretary Nagel and Mr. Hornaday, in which the director of the Bronx Zoo charges that Walter I. Lembeck, who has supervised the killing for the government, has had a personal interest in them.

The open letter is signed by Mr. Hornaday, A. S. Houghton, Julius Seymour, Bayard Dominick, Jr., Robert B. Lawrence, George W. Bueligh, Leonidas Dennis, Joseph T. Howe, Charles C. Cleveland, Oscar A. Campbell, William B. Greeley, Marshall McLean, E. W. Sanborn, and Stanley D. McGraw, the Camp Fire Club's committee on game protective legislation.

Secretary Nagel is now on his way to Alaska, but the Department of Commerce and Labor issued a statement in reply to the Camp Fire Club's open letter.

The department's statement says that the present time has been selected for the attack upon Secretary Nagel because he has left for Alaska. The statement adds that the Secretary has issued instructions and regulations for the killing of surplus male seals by the natives of the Pribilof Islands under supervision of government agents.
